THE LUZON CONFERENCE
ON MINING AND THE ECOLOGY

Luzon Declaration

[illegible]

[illegible]

[illegible]

[illegible]

[illegible]

[illegible]

[illegible]

[illegible]

[illegible]

[illegible]

Mr. President, recently you said that you want 86% of Filipinos to have access to potable water systems. Mining puts at risk this very basic human right; in fact, many of our communities no longer have access to clean drinking water, and this has been largely documented.

OUR FEAR:

DENR has allowed mining companies to monitor their compliance to environmental provisions themselves! What hope do we have?

1. [illegible] Executive Order 270-A, which revitalizes the mining industry in the Philippines to the detriment of the Filipino People;
2. Repeal the Mining Act of 1995 and pass the Philippine Mineral Resources Act pending in Congress.
3. Invest heavily in community-based eco-tourism and agriculture, especially in our island ecosystems where people are poor yet they live in splendor;
4. Respect the mining moratoria that were passed in Mindoro Oriental, Mindoro Occidental, Marinduque, Romblon, and Albay – the people there have spoken, please listen and take action; and recognize and honor the genuine free, prior and informed consent processes of our Indigenous peoples.
5. [illegible] a moratorium on large-scale mining. Stop the processing of mining applications. Review existing mining operations. Immediately stop those operating within biodiversity and agricultural areas.

Mr. President, the future of our people and our land is in your hands. On the other side are business and political interests. We are your people. There is another way.

The poorest areas in the country are mining areas. As proven for decades, mining has no significant contribution to the economy in terms of employment, investment and revenues.

Mr. President, [illegible]

Signed on the 28th of February, 2011, during the Luzon Conference on Mining and Ecology held at the Pontifical, Royal and Catholic University of Santo Tomas [illegible]

PHILEXPORT

DRIVING PROGRESS THROUGH RESPONSIBLE MINERALS DEVELOPMENT

The business community agrees with President Benigno S. C. Aquino III that for the country to reform its social fabric and achieve truly inclusive economic growth, it must attract greater levels of investments. This will in turn generate jobs, alleviate poverty and make our country a leader in Asia once again. But attracting investments must be done without compromising the environment for future generations.

Recognizing the potential of the country's huge mineral wealth, we are of the view that the Aquino government's goals can be attained through a judicious, rational, and developmental approach to minerals development. We support the advancement of legitimate, responsible mining that properly takes care of the environment during and after operations. And to do so, we need an environment of consistency, stability and harmonized policies.

We also believe that the role of all mining stakeholders is to ensure the enforcement of all government regulations in terms of fair revenue sharing, responsive community development, and responsible stewardship of the environment.

If government really wants to encourage long-term and recurrent investments, it must be careful in making substantive changes to what is already a well-crafted mining law to ensure that the Philippine investment environment is competitive with other mineral-rich countries. It is more important for government to decisively implement existing policies that encourage much-needed investments. We ask those who oppose mining to assist in monitoring mining activities to ensure that mining firms are operating responsibly, with care for the environment. What is needed is stricter enforcement and monitoring, not a ban. We can all help in achieving this.

There is an overarching need for the national government to:

1. Strengthen the organizational and financial capacity of government mining and environment protection regulatory agencies to effectively enforce mining laws as well as evaluate and monitor mining activities; mandate these agencies to compel small scale-miners to comply with environmental protection laws and to ensure that only Filipino citizens are allowed to do small-scale mining;
2. Facilitate the processing of pending mining and exploration permits and applications of legitimate investors;
3. Harmonize national laws and policies on mining with conflicting local ordinances;
4. Immediately pass legislation to amend existing mining laws and incorporate the new mining policy with prospective application to new projects; this will eliminate anxieties of existing mining companies holding agreements and contracts validly approved under existing mining laws;
5. Require a more equitable share in extracted minerals in terms of direct national taxes and share in net revenues of mining companies; such share should not be unduly deferred until full cost recovery;
6. Address the tax and export leakages in illegal mining and small-scale mining sector to enable the government to collect the proper revenues;
7. Earmark a fixed percentage of government's earnings from mining for programs that will create new capital, develop human resources, and build horizontal infrastructure;
8. Initiate close consultation with all mining stakeholders to review revenue sharing policies, particularly by certifying as urgent HB No. 4410 on the direct remittance of 40% LGU share in mining taxes;
9. Compel mining companies to submit a definite rehabilitation/restoration program in mining areas and implement said program at the companies' expense within a year after their cessation of extraction activities in a particular area;
10. Require mining establishments to assume full responsibility in the prevention, mitigation, elimination, and correction of any environmental and social damage that may occur during their operation at the mine site and peripheral areas/communities;
11. Ban any kind of mining in any watershed or protected areas and prosecute those national and/or local government officials who will grant mining permits in these areas;
12. Encourage the development of downstream industries within an industrial development framework and an environment that will provide for security of investments in far-flung areas.

"We have a choice between fear and faith, between hardship and hope, between division and unity. Our task is to find the common ground of reason, through patient dialogue and constructive suggestions – and from there, move forward to the more prosperous future our people deserve."

See how Philex Mining builds communities

Our camp in Padcal has grown into a thriving, self-sufficient community highly regarded around the world. We have launched livelihood programs where miners and their families acquire valuable skills such as coffee farming, livestock raising, aquaculture, honeybee keeping and loom weaving among others.

Through our Social Development and Management Programs (SDMP) for our host communities, we have built one general hospital, four clinics and 10 school buildings for the benefit of over 15,000 residents from 5 barangays. With these initiatives, opportunities for a brighter future are within the residents' reach.

Live your dream at Manhattan Heights.

Life is all about challenges. They make each day more exciting and push you to always be at the top of your game. From the moment you step out of the house, however, doing what you set out to accomplish for the day takes effort and patience—especially when the rush hour is in full swing.

When it comes to the bigger and more serious challenge of fulfilling your dream of a convenient lifestyle, Megaworld Corporation has something exceptional to offer: a well-planned condominium home at Manhattan Heights in the Araneta Center. In this vibrant community, you're free from the stress of the gridlock, giving you and your loved ones more time to be, see and do more.

The third phase of the 18-tower Manhattan Garden City project, Manhattan Heights showcases a premier location near the exciting attractions of the Araneta Center, as well as a variety of schools, workplaces, medical centers and churches. It also boasts a direct link to the LRT-2 and MRT-3 train systems, which lets you enjoy a traffic-free route to the most important destinations in the city.

Tower 1 of Manhattan Heights, the first residential tower to be built for this phase, is set to come on stream soon, offering condo buyers the opportunity to command the pace of their everyday lives.

Aside from overlooking the 35-hectare Araneta Center Cubao, Manhattan Heights features a 170-meter-long garden walkway. This serves as your exclusive connection to the Smart Araneta Coliseum and over a hundred leisure and retail establishments at the Gateway Mall, Farmers Plaza, Ali Mall and Shopwise. In this hub area, you can do your weekly groceries, shop for your family's clothes, dine with them, and catch the last full show of the hottest box office hit.

If staying in is more your thing, Manhattan Heights has its own amenity area filled to the brim with recreational amenities and sports facilities. Homeowners also have the privilege of enjoying the plus amenities in other phases, which are all interconnected through landscaped walkways.

[illegible] and leisure amenities come fully accessible at your new home

Commuting is already a breeze with the project's instant access to the trains. However, train riders aren't the only ones that have it easy. Those traveling to Rizal or Quezon North can simply stroll outside and easily catch a bus at the Araneta Center bus terminal.

Living your dream may be challenging, but it will always be fun and fulfilling when you call Megaworld's Manhattan Heights your home.

Discover Manhattan Garden City. **Call [illegible] or visit the showrooms at 3rd Level of Gateway Mall and 2nd Level of Ali Mall.**

Summer Classifieds

The summer workshop is a rite of passage for any kid looking for sweet respite from the summer heat. From swimming lessons to theater camp, it's been an age-old tradition to get some learning to go with that summer yearning. This week, *Young Star* puts together a big, bad catalog of summer to-dos, from manga drawing lessons to a real life Camp Rock. So whether you're a wannabe Kelly Slater or the next Anna Wintour, *Young Star*'s got you covered from March to May.
